

Landslides disrupt traffic on NH10

SE Report

GANGTOK, September 8:

The torrential rain taking place since Monday night triggered multiple landslides disrupting traffic on NH10 between Rangpo and Gangtok. As many as 17 landslides occurred with major slides taking place near 20 Mile Bardun and at Gai Dhara.

With the blockage, several vehicles were stuck on either side of the road.

The new NHIDCL general manager Shankar Bhowmik along with his team started the clearance work in the morning and by 11 am, single-lane traffic was allowed while road restoration continued on till evening.

The passengers and drivers appreciated the NHIDCL for taking up clearance work despite rain, the release mentions.
